

### Get ready to shape the future

VP SALES AND CUSTOMER SUCCESS CANDIDATE BRIEFING PACK

We are on a mission to enable humanity to achieve its full potential by closing the skills gap.

#### A MESSAGE FROM THE GEO

## Say hello to new growth opportunities

Thank you for taking the time to learn more about this VP of Sales and Customer Success opportunity at Workera. As we transition from a start-up to a scale-up, we seek a motivated leader to play a critical role in shaping our global sales function. Over the next six months, we have ambitious plans to enhance the growth of our sales team, and your expertise will be invaluable in achieving this.

Since our inception in 2019, we have quickly established ourselves as market leaders in the educational technology space, harnessing the power of AI to create an exceptional product offering that sets us apart from competitors.

It's an exciting time to join the team at Workera. We have a strong market presence and an impressive executive team, including education technology domain experts, psychometricians, and pioneers in machine learning. If you have experience in successfully navigating the challenges of a scaling company, a comprehensive understanding of the sales cycle, and a genuine passion for mentoring and leadership, this position is tailormade for you and has the potential to be a defining point in your career.

I look forward to receiving your application and meeting with you soon.

#### **ABOUT WORKERA**

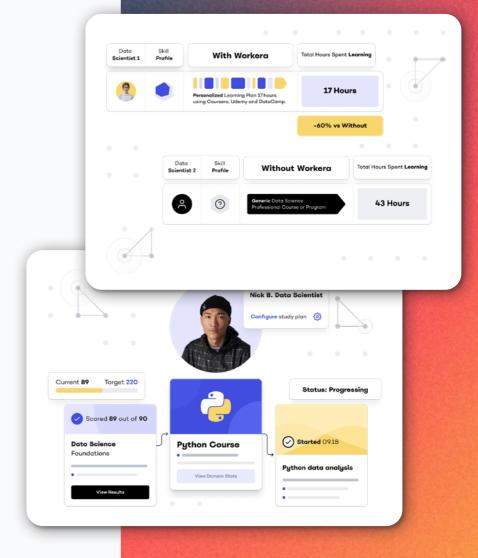

### Groundbreaking solutions as standard

Workera exists to level the playing field by providing an accurate way to measure skills and close the identified gaps, so that we can work toward a more meritocratic society.

Using a pioneering approach, we generate assessments for enterprise employees, then assign actionable strategies that can upskill them at eight times the rate of other solutions, maximizing ROI.

Our smooth integration with free and paid content providers allows learners to be directed to specific sections within various courses, catering to each skill identified in their plan. This ensures that they can effortlessly navigate through a wide range of content while remaining fully engaged with the course material.

The market appetite for bespoke training solutions is ever-growing. We've created over 75,000 learning plans and measured 3.2 million skills, and with new emerging markets in government and channel partnerships, we're only just getting started.
