Practice Overview

HOW LONG CAN YOU WAIT TO DRIVE TOP LINE PERFORMANCE?

Stott and May's Technology Sales practice has an enviable reputation, recruiting the finest talent for high-growth technology brands. Whether you're a 'cool' startup disrupting the market, a more established company going through a restructure, or gearing up for an IPO, we have a demonstrable track record of connecting our clients with sales professionals capable of delivering exponential growth.

Since our inception Stott and May have operated in a niche within this hugely competitive market. Recruiting mid to senior level hires, with typical base salaries from \$100K, through to \$300K, we have forged some fantastic client relationships. These have been garnered through our capability to deliver a comprehensive, premium standard search service in aggressive, 'contingent' timescales.

HOW WILL YOU KNOW WHEN YOU NEED US?

1. You are at a critical stage in your growth and cannot afford to make a 'bad hire'.
2. It is taking you too long to source candidates that meet your desired profile.
3. You are struggling to entice 'high performers' from the competition.
4. You do not have the access you would like to the passive market.
5. You are expanding into new geographies but do not have the local knowledge or network.
6. Organic growth or recent investment leaves you with a large number of open heads to be 'closed' in a short timeframes.

- VP Business Development

"If Stott and May call you about an opportunity - hear them out. I've spoken with a lot of recruiters and there are very few that I felt I could trust throughout the process. Stott and May are one of those rare partners that are not only very professional, but their transparency, accuracy, detail, and follow through are impeccable. Throughout the process they supported me, kept me up to date and did exactly what they promised they would do when they said they would do it. As a consequence of their approach, I was also very transparent about my strengths and potential limitations related to the role, which meant when I joined all the cards were on the table. There were no surprises on either side and I was set up for big success."
