

Data & AI

Practice Overview

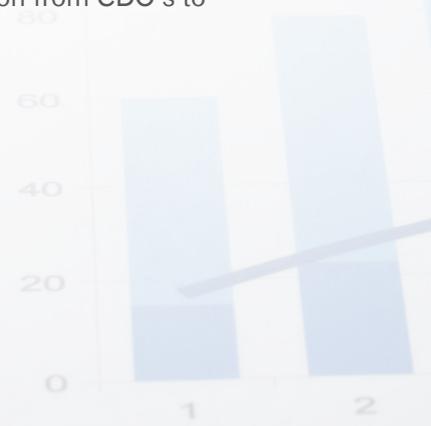

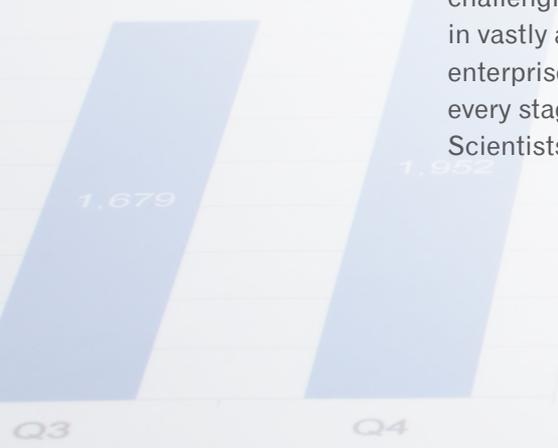

access.

HAVE YOU GOT THE TALENT TO TURN DATA VOLUME INTO DATA VALUE?

Stott and May's Data & AI practice helps businesses find the right talent to create tangible outcomes from their data assets. Organisations seeking to deliver competitive advantage from data need to secure the perfect blend of people, process and technology. Our focus is on the people. Whether that's the people capable of building the strategy and vision around your information assets all the way through to the people who bring innovation and cutting edge solutions through Artificial Intelligence to your business.

Our team of consultants have the market knowledge coupled with a large 'known' candidate network to help our clients secure talent for even the most challenging to source, specialist Data and Artificial Intelligence skillsets in vastly accelerated timeframes. We offer extensive coverage across the enterprise space ensuring we can deliver high quality options to add value at every stage of the Data & AI lifecycle within your organisation from CDO's to Scientists and Engineers.

HOW WILL YOU KNOW WHEN YOU NEED US?

1. Existing recruitment options lack the technical knowledge required for specialist data roles.
2. You need assistance in scoping senior data positions e.g. CDO.
3. Requirement to access a broader network of 'passive' candidates to accelerate time to hire.
4. The 'skills shortage' associated with certified data science professionals is creating challenges.
5. You need to understand the competitive landscape and salary benchmarks to secure talent.
6. You want access pre-screened candidates with a proven track record of creating tangible outcomes from data.

LET'S TALK THE SAME LANGUAGE

"If you're looking for a recruitment partner to bridge the skills shortage associated with technical data and AI roles, whether it's artificial intelligence, data science or even more senior leadership positions, it's essential that your chosen partner has strong domain experience. They should be part of the community. The Stott and May Data & AI practice plays an important role in making sure that all stakeholders across the hiring process are talking the same language. Our heritage in technical recruitment ensures we can add value from scoping out the brief with internal HR functions and hiring managers through to positioning the challenges and the requirements of the role accurately to candidates. We know how to find Data & AI talent – because we understand it."

Andreia Rosa

Head of Data & AI – Stott and May

deliver.

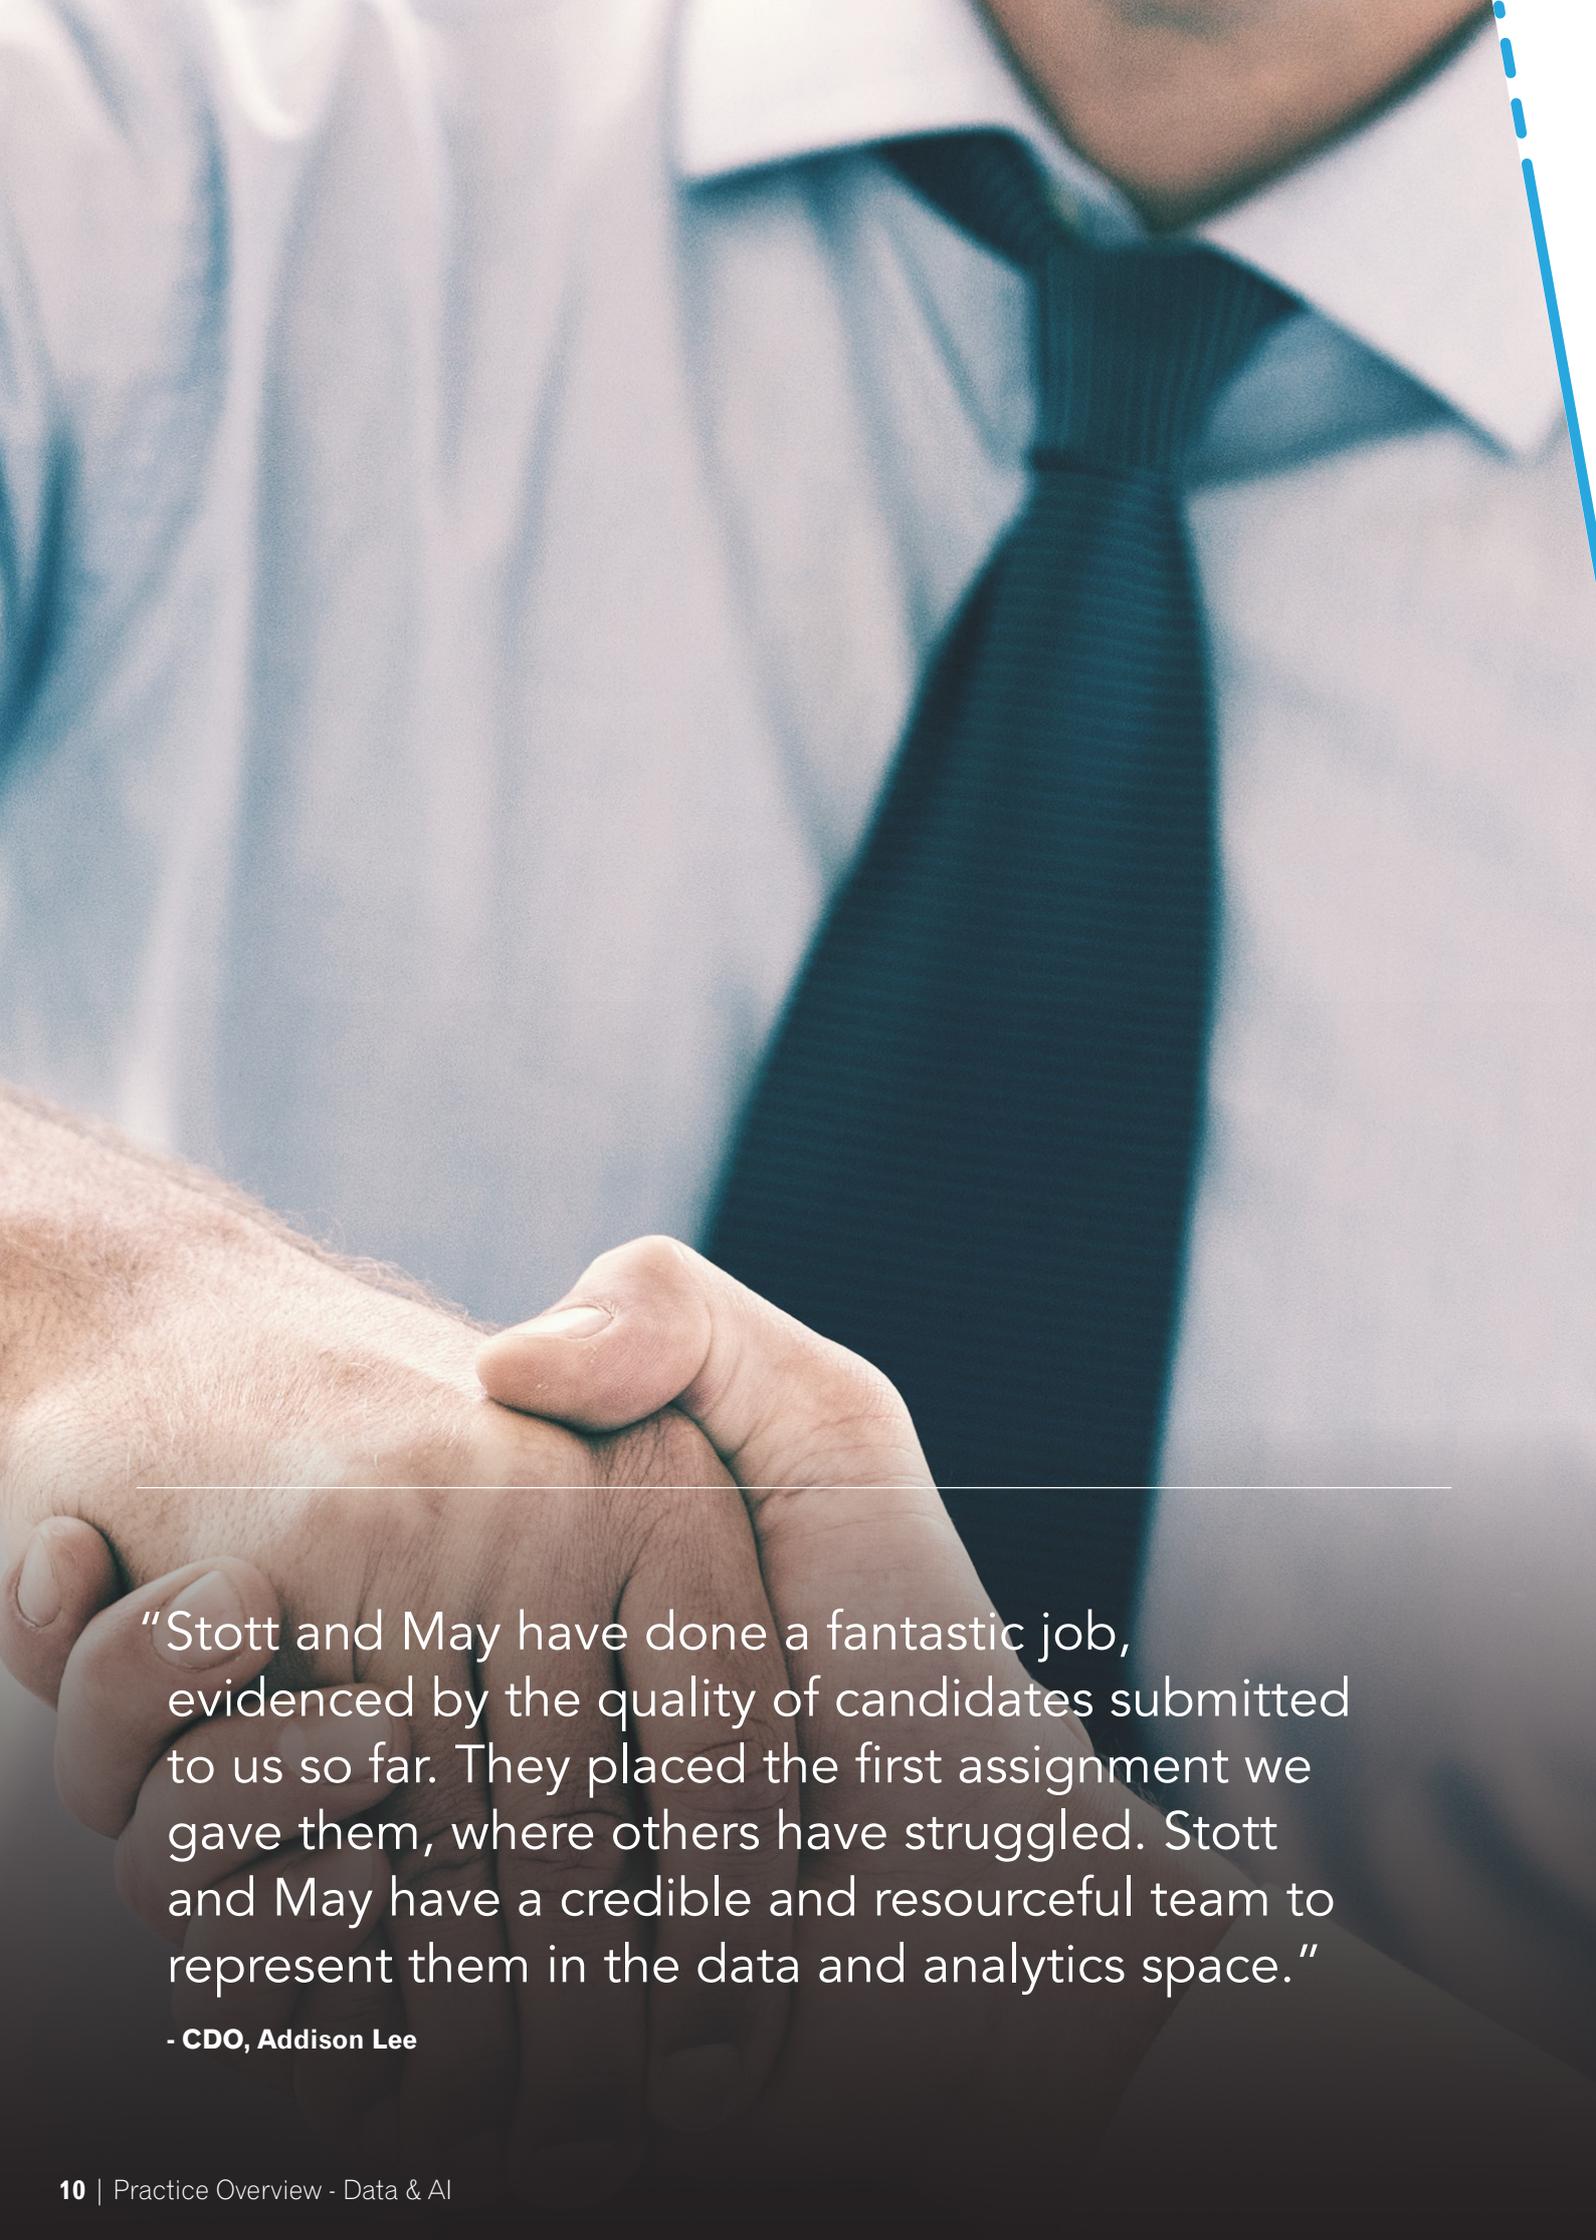

WHAT DO OUR CLIENTS SAY ABOUT US?

“I worked with Stott and May at my previous company and was keen to engage with them at Mango, as I have always found them to be professional and personable. The consultant we worked with reflected exactly what have come to expect from Stott and May. They were professional, courteous and unlike many recruitment consultants a pleasure to deal with. From the outset they took the time to understand my requirements, and made sure I got only received highly qualified CVs. This ensured that I only saw quality candidates, which led to high quality conversations.”

- Head of Consultancy, Mango Solutions

“Stott and May have done a fantastic job, evidenced by the quality of candidates submitted to us so far. They placed the first assignment we gave them, where others have struggled. Stott and May have a credible and resourceful team to represent them in the data and analytics space.”

- CDO, Addison Lee

partner.

MEET THE KEY PEOPLE.

Meet some of the team that have a proven track record in finding the talent to help accelerate your data strategy.

Andreia Rosa
Head of Data & AI

Andreia has deep understanding of the Data & AI market and its needs. She has built a large network of over 15,000 professionals that continues to grow daily as a result of the quality of client and candidate care she provides. Her ecosystem of client partner's spans across regions including the UK and EMEA. Andreia prides herself on being able to draw the perfect balance technical expertise, business acumen and cultural fit based on knowing her client's requirements inside out. Her goal is to support businesses in finding the right partners and talent to succeed in Digital Transformation.

John Eveleigh
Consultant, Data Engineering & Analytics

John has been working in recruitment for over 3 years and has recently joined Stott and May to strengthen the Data & Analytics practice. With a proven track record of recruiting Data Analysts, John has had a good level of exposure to the current market. John takes his time to understand his client's needs so that the recruitment process will run as smoothly as possible. On top of this, he always exhibits high standards of candidate care, making sure they are kept up to date with any progress instantly. In all of his work, building strong lasting relationships of mutual trust is a fundamental priority.
